Re: Stormwater changes on Subdivision for LeVie Farm

Dear Mr. Cramer,

Enclosed for submission to the Planning Board, please find ten (10) prints of an Amended Subdivision plat showing stormwater revision. This indicates individual stormwater practices upon all outside perimeter lots (with the exception of Lot 1 and Lot 2 wherein you had previously indicated such practices were not required due to existing conditions upon these lots).

The need for this change is to address various subsurface conditions found during construction. The practices shown are the same that have previously been approved by the Planning Board for Lot 5, Lot 8, Lot 9 and Lot 12. This revised plan now includes these practices on all outside perimeter lots except Lot 1 and Lot 2. It is understood that all previous approval conditions set forth in the Planning Board's February 4, 2020 regarding this matter will remain in full force and effect.

It is requested that this matter be placed upon the Planning Board's December 7<sup>th</sup> meeting agenda. We look forward to discussing this matter further with you and Planning Board at the meeting. Thank you for your cooperation. If you have any questions please contact me at your convenience.

Sincerely Yours,

**HERSHBERG & HERSHBERG
