**Subject:** Public hearing for Milt Orietas

Jeremy,

I would like to send you the correspondence from Dave Moreau via email so you can submit this for the November 10th meeting. Could you please also forward this to Mr. Voss as well.

Hi Milt,

My intention when including the language preventing further subdivisions was simply to limit the total number of lots/homesites that could be created. You are not proposing a subdivision at all. You are simply making a property line adjustment.

In addition, I believe that you have every right to manage your property as you desire as long as it is done in a way that is consistent with Town regulations and does not threaten public health or safety.

I believe your proposal clearly meets these objectives. I have no issues at all with your proposal.  
Dave
